

NoCOUG Conference 100

Wednesday, November 9 at Computer History Museum, Mountain View

The [Northern California Oracle Users Group](#) is celebrating its 25th anniversary in 2011. The upcoming conference at the Computer History Museum on November 9 is NoCOUG's 100th quarterly conference and the upcoming issue of the *NoCOUG Journal* is the 100th issue.

NoCOUG Conference 100 features top Oracle experts and speakers such as Oracle Ace Directors Steven Feuerstein, 🏆 Craig Shallahamer, 🏆 and Alex Gorbachev. 🏆 Several important Oracle product announcements from Oracle OpenWorld will be repeated at Conference 100 including Oracle Data Appliance, Oracle NoSQL Database, and Oracle Public Cloud.

Conference 100 is being held at the [Computer History Museum](#) in Mountain View. The museum houses amazing computing artifacts such as a Hollerith Tabulating Machine and an operational Babbage Difference Engine designed two hundred years ago by Charles Babbage.

The [100th issue of the NoCOUG Journal](#) features an interview with Michael Stonebraker—the high priest of relational databases, the research paper by Dr. Edgar Codd that started the relational revolution in 1970—*A Shared Model of Data for Large Shared Data Banks*, and the results of the second international NoCOUG SQL challenge.
